

Multi-platform Environments

Mac Admin Fundamentals • Mac Admins Conference at Penn State 2014

Macs As Corporate Citizens

Apple hates enterprise right?

But that won't stop us from integrating...

Integration with Services

- Managed printers
 - Windows based print queues
 - Linux hosted CUPS printers
- Connect to Windows file shares and linux based Samba shares

User Accounts

- Local account(s)
- Active Directory
- Open LDAP
- Open Directory

Later This Week...

- Wednesday - 9:00
 - Citizens of the World : Macs in Windows Server Environments
- Wednesday - 10:45
 - Replacing Dual Boots with Virtual Desktops in Managed Macs
- Wednesday - 1:30
 - Migrating from the PC to a Mac: it's not as scary as the users think
